

Be a "Friend to the Pool"

Dear Business Leaders,

The Morrisville Community Pool has been a Summer gathering place for the past 50 years. A newly formed Morrisville Community Pool Board has come together to help revitalize this important resource and make it a viable asset for the community. Williamson Park has become centerpiece for Morrisville due to the continued support from local businesses, volunteers and borough government to ensure that our sports facilities and recreational areas are able to be enjoyed by all. In 1995, the community came together to build the "Imagination Island" playground demonstrating the power of cooperation between business, volunteers in Morrisville Borough.

Unfortunately, the Morrisville Community Pool was significantly damaged by the April 2005 flood and as a result a vital asset in our lower pool was destroyed. Our pool has not been able to fully rebound in the way that the adjoining park has demonstrated can be done. It is the Morrisville Community Pool Board's goal to once again make the pool an outstanding community resource and asset. We are reaching out to everyone to come together and help put this source of recreational summer enjoyment back in top form by attracting the local membership needed to further improve its offerings to our community.

As **business leaders** we need your help to ensure us of reaching our goals. The newly appointed board is developing a business plan that we believe will not only bring the pool back to it past excellence but put it on par with other pools in neighboring communities. Your help is critical in this plan! Working together with borough leaders not only bring the pool back to it past excellence, but put it on par with other pools in adjoining communities. Your help is critical in this plan!

A ***Friend of the Pool*** wall will be created to be sure that we recognize and honor our volunteer business leaders that help us to achieve our mission of providing a safe and fun environment for borough families. We will be reaching out to the community with our top goal being to recruit and maintain our local membership. The way the pool is presented and maintained to the community is one of our top priorities to achieve this goal. We will hold two Community Clean-Up Days on May 5th and May 12th from 8:00AM to 12:00 AM. Please join us by working as volunteers to clean up the pool area, plant flowers or even make a monetary donation to ensure our pool can once again be the showcase of Williamson Park.

For additional information, please contact us to be a Friend to the Pool or just show up and be part of the renaissance of the Morrisville Community Pool.

Thanks you for your continued support!
